Profile

Creative and technically proficient web designer with 5 years of experience specializing in building fully realized, high-performance websites from concept to code. Expert in user-centered UI/UX design, responsive layout, and modern design tools (e.g., Figma, VS code and warp), paired with strong frontend development proficiency in HTML, CSS, JavaScript, and frameworks like React, Vue, etc. This dual skill set ensures pixel-perfect implementation of interactive designs, optimal site performance, and seamless user experiences across all devices, consistently delivering projects that are both aesthetically compelling and technically robust.
